

# FINs LAKE STOCKINGS 2011

## Fishing closer to your home

SOMETIMES YOU JUST want to catch a few fish after work or wet a line with your kids for an hour or two before their softball practice. Maybe you just want to grab some chicken and enjoy a family picnic at a nearby park while you wait for a catfish to bite.

The Fishing in Neighborhoods (FINs) program helps make this possible by bringing good fishing closer to your home.

Look at the chart to the right and you'll find a list of Kentucky's FINs lakes. You'll also find the number of fish stocked, the month each lake is stocked and what is stocked.

The Kentucky Department of Fish and Wildlife Resources will stock nearly 210,000 fish in the FINs lakes alone in 2011. That's a lot of excitement.

Try one of these lakes the next time you want a quick, productive fishing trip. You'll be glad that you did. ■
